EAST PURDY

Miss Vitra Cox of near Bethel visited her cousins, Ruth and Dessie Russell, last Thursday night. She went from there to Purdy, where she will visit other relatives before returning home. Mrs. Elizabeth Bayless, wife of Taylor Bayless, died in Purdy at the home of her daughter, Mrs. Vina Allred, on June 14, and was buried at Arnhart cemetery the following Thursday. She was 68 years and 8 months old and had lived a devoted Christian life. She leaves a husband and six children to mourn her death. The children are Mrs. Rhoda Sooter, Mrs. Julia Davis and Mrs. Mary Jane Roller, of near Purdy; Ola Bayless, of Webb City; Mrs. Vina Allred, of Purdy, and Mrs. Addie Simmons. The bereaved have our sympathy. Miss Alta Kennedy of near Monett visited Miss Dessie Russell from Sunday to Wednesday of last week. Rev. M. Henson and family went to Jenkins last Thursday to spend a week fishing and huckleberry hunting, but were called home Friday on account of the serious illness of Mrs. Henson's mother, Mrs. James Smith, who is at Monett at the home of her son, Jess Smith. Siegel Henderson and family visited Siegel's sister, Mrs. Jane Eden, and family, Sunday. Rev. Ed Brown of Purdy, preached at Arnhart, Sunday afternoon at 4 o'clock. Rev. and Mrs. Ed Brown and children, Rev. B. F. Crawford and Miss Ellen Badgett of Purdy, and Willis Brown of this place, visited at Jack Russell's, Sunday. The wheat in this part of the country is ready to cut and some of our farmers intended to start the binder this morning, Monday, but we are afraid that the big rain last night "knocked" them out. Barney Dinkins and family of Kansas, who have been visiting Barney's uncle, Harry Dinkins, returned home, Friday. They made the trip in their car. SAMMY.

PREPARE DRIVE ON HESSIAN FLY

Missouri Farmers to Attack Enemy in Every Wheat Growing County

"The most gigantic drive that has ever been delivered against the Hessian fly is now being prepared by Missouri farmers in every wheat growing county in the State," says T. J. Talbert, assistant professor of horticulture at the University of Missouri at Columbia. According to Mr. Talbert, the fly is now entrenched in the seed and maggot stage between the leaf sheath and stalk at the bottom of the wheat plant. The enemy will remain in this position until fall, thus providing the farmer an opportunity to deal him an effective blow at his weakest point. During the months of July, August and September the trenches of the Hessian fly can easily be taken without artillery preparation. As soon as practical after harvest, the farmer will advance in the open to the first line trenches in the wheat stubble fields, and by the use of the disc, harrow and drag he will bury the enemy deeply beneath the soil. In order to make the destruction of the enemy complete, his food supply must be cut off. This can be done by discing and harrowing the plowed ground to keep down volunteer wheat. The fly will make his general attack upon the fall wheat during September and October after which he will take his encampment for the winter at the base of the wheat plants. As the life of the fly is only four or five days in the adult stage during which time the eggs are deposited on the wheat leaves, it is advisable to sow the wheat late enough to escape the egg-laying of the main fall brood of flies.

The fly free dates for Missouri are about as follows: For northern third of state, October 1; central third, October 8, southern third, October 16. If the fly is allowed to entrench himself in early wheat and volunteer wheat in the summer and fall, he may emerge the following spring in numbers sufficient to do great harm to wheat that was sown on the fly free date. To make a successful fight against the enemy, co-operation is necessary and cannot be too strongly emphasized.

FRISCO WELL PREPARED FOR MOVING OF TROOPS

St. Louis, June 19.—The 100,000 members of the militia, if summoned to the Mexican border, can be moved without a hitch and without affecting the regular passenger traffic of the Western railroads, railroad officials said Monday. J. N. Cornatzer, general passenger agent of the St. Louis & San Francisco railroad, said the Frisco could take care of all the troops offered. Should the troops be called out nearly all will pass through St. Louis on their way to the Mexican border. This, it was said, will be the greatest test for efficiency the Western railroads have ever known. The road men, however, expected that few, if any, troop trains, would be moved to the border for several days. Trains are moving toward the mobilization points in the various states, Monday. At the office of the transportation manager of the Santa Fe in Chicago, it was stated that road can move 8,000 troops a day to the border without affecting the regular traffic. One of the officials of the Santa Fe said: "We have plenty of equipment, can make up trains in an hour and the general public will not know the difference." The Rock Island railroad in moving troops will operate each westbound passenger train in two sections, 20 minutes apart, making the second section a troop train. This will avoid any delay to regular traffic, the railroad officials said.
